

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! The taxes I now pay for telephone service are almost as much as the actual phone company's fee. Please, stop trying to use our telephones as a choice source for raising more tax money. I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am very concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people like myself, who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

Please, I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Edwin Scarff
